

# EVERHOT BRANDING IRONS —TORCHES—SOLDERING ATTACHMENTS

The amount of money you spend each year replacing planking, hammers, shovels, wheelbarrows and other equipment is enormous. Some tools are lost, some are stolen or misappropriated and others just disappear. But regardless of why or how your tools are lost, the important fact is that you do suffer expensive losses.

Branding your name on your tools prevents loss. Say it's conscience or human nature. Put it any way you want to. The fact remains that branded equipment is hot—too hot to be in anyone else's possession.

Stop misappropriation of your equipment now. Start branding your name on your tools with the Everhot branding torch.

The Everhot brander is light in weight, and portable. It can be used indoors or out on the job—wherever your equipment may be. The brander heats in five minutes and stays hot for continuous branding. Just press the brand against flat surfaces or roll around shovel handles for permanent identification.

Use an  
**EVERHOT STEEL STAMP**

Prevent tool losses. Eliminate expensive replacement by permanently identifying metal tools and equipment with an Everhot steel stamp. Made of finest bar steel. Extra deeply engraved to assure clear, legible markings on steel, brass, bronze, aluminum, etc. For best results, hold stamp and strike a sharp blow against head of stamp with an 8-pound hammer. If impression is light, use more force or heavier hammer. 1/4-inch characters are usually recommended for all-purpose marking. Not recommended for castings or hardened steel cutting tools.
